2
Fatal and Non-Fatal Shooting Victimizations, Jan 1 through Apr 11

The map below displays the change over time in reported victimizations by geography. Using the Select Change Type parameter below, you can toggle between percent change and absolute change. Using the Select Comparison Type parameter below, you can select the year of comparison. The bar graph on the right shows the total number of victimizations for each year since 2011.

Fatal and Non-Fatal Shooting Victimizations Per 10,000 Residents by Community Area, Jan 1, 2022 through Apr 11, 2022

The community area map on the left shows the number of fatal and non-fatal shooting victims per 10k residents. Hover over any geographic boundary to see its victimization rate, and how it compares to the prior year and to other communities with similar victimization rates. The bar chart on the right groups together Community Areas with similar victimization rates.
Note: Population estimates based on 2019 ACS data.
